About Center Stage, Inc.

As of 2025, Center Stage, Inc. may be a new name in the mobile concert staging industry, however, the face behind it is anything but new to the industry.

Our founder, owner and president, Jerry Rock, spent 18 years working for the number one mobile staging company in the Chicagoland area where 16 of those years was spent running the majority of the operations. As of 2023, after 37 years in the business, that same company decided it was time for them to close their doors and enjoy the fruits of their labors. While we wish them the very best, as well as congratulate them for all of their success, we're also very much aware of the void that has been left from such a powerhouse in the mobile staging business.

Thus, the reason for the formation of Center Stage, Inc. With that formation, we bring with us a brand of mobile stages that is, without a doubt, known as the leader and absolute best brand of mobile stages throughout the industry. Stage Line is a brand that everyone knows, trusts and relies upon for safe, structurally dependable and quality mobile staging that is second to no one. Center Stage, Inc. is committed to providing only the very best in mobile staging products. This is precisely why we choose to trust our new name in the industry with the most trust-worthy brand in the industry.

Why Choose Center Stage, Inc?

Center Stage, Inc. believes that one of the best ways to earn trust and build confidence with your clients is to provide them with a quality product that they'll be happy with and proud to use year after year. Combine that with an absolute stellar professional customer service team to enhance that experience and you get exactly what you should expect from any company you choose to conduct business with. You should never settle for less than what you and your event deserve and Center Stage, Inc. is committed to making sure that you won't ever have to.
